

# Harpist and Composer

## **Romantic, relaxing and personal,**

Sandra's harp music creates an environment to grace your event, with the beauty of her instrument, and the sweet sounds of her singing. She offers a unique service, as a composer, to record your personalised song, sentimental, spiritual, serious or funny.

**She can travel almost anywhere with her harp,** needs no electricity, no lighting other than nature itself, and shelter for her and her harp, against the weather. She has played on the beach, in historical churches with no electricity, on cruises, restaurants, galleries, commercial openings, at a themed mountain wedding, children's birthday parties (in clown costume), official school songs, universities, private dinner parties, farewells, graduations and school concerts accompanying classes and adult choirs, medieval events (in medieval costume), Irish pubs, and at sick beds as harp therapy. Sandra sang for her family at birthdays, funerals, and daily in her Mother's last months, at her bedside. She will do the same for you.
